Hi Rich

Sorry to here your retiring from the Distributor. I sure have enjoyed it. I am well familiar with how much work it is sometimes. I have a couple news letters I am involved with, and no thank you I don't need another ha ha.?

I was thinking maybe we could ask how many members would want to have their name, Phone and or email in a database for other members to access and keep in touch?

I for one would really like to be able to keep in touch with my work family.

What do you think, they could add there name or not their decision?

In closing I want to thank you for the work you put in to keeping us informed.

I appreciate all you've done and all the effort you put into making this news letter the Best deal around.

Your friend

Gary Henthorn

Love ya man and best wishes in the next phase of life.
